Doha → the world

Hi.

We're **Orbition X**, a Doha studio that designs, builds and markets brands people actually remember.

Here's what's inside ↓

years old.

That's when Muaaz Ahmad opened his first online store.

He learned what makes people stop, click and buy **with his own money on the line.**

Five years and dozens of launches later →

ORBITION X

**FOUNDER
led,
ALWAYS**

Today we design, build and market brands across the Gulf, Europe and the US, with the same hands-on instinct we started with.

Where we're going

A region where every ambitious brand **looks world-class**, sells online with ease and **never runs out of momentum.**

VISION

What we do every day

Pair design that stops the scroll with **systems that do the selling**, so our clients grow faster with less guesswork.

MISSION

Proof, not pitch.

Every number on this page comes from a live client account. No forecasts, no mock-ups.

How it **works.**

5 steps, every project

listen

01 • We study your market, customers and numbers before suggesting anything.

02 • A clear roadmap: priorities, budget and the result we're aiming for.

PLAN

make

03 • Design, build and content in focused sprints, with you in the loop.

04 • Go live with tracking in place, so every click and sale is counted.

LAUNCH

grow

05 • Test, learn and scale what works. Then do it again.

Safari Door INDUSTRIES

A joinery manufacturer in Doha with a serious factory and no way to show it online. We built a site that walks contractors **machine by machine** through the production line, so they can judge capacity before they pick up the phone.
